**Sicily:** The volcanic island jewel of the Mediterranean. A unique climate with unique produce, and a melting pot of flavour. A tapestry of interwoven food cultures, with a fusion of Middle Eastern, North African, Iberian, and French influence. Sicilian produce has been carefully crafted into recipes across centuries, recipes carefully shared with family and friends for generations.

Our Sicilian Head chef & team have sourced some of the finest produce from the regions of Sicily, along with the very best of Local London and British suppliers. Our one aim, to bring menus that are authentic Sicilian, honestly local, and caringly shared.
